

COMPANY PROFILE

CASPANI TINO
100% MADE IN ITALY

QUALITY IS A LIFESTYLE
www.caspanitino.it

THE COMPANY

Our company was founded some decades ago by Mr. Caspani who, after several and important experiences in furniture field, wanted to dedicate his knowledge to classic style, enriching them with personal interpretations suggested by market trends.

From the beginning our company has created collections for the whole house offering to the client the opportunity to furnish every room and choose among a very wide range of items.

Our products are strictly manufactured in Brianza area, Luxury furniture district, 20 km far from Milan, the heart of Made in Italy, where the furniture culture finds its roots and is handed down from generations. Our key feature can be found in production: we are the only one to have created different manufacturing centres, each of which specialized in a particular type of items: classic sofas, style sofas, bedrooms, dining rooms, wardrobes...

This diversification allows us to rationalize work and therefore costs, to exploit the synergies among different production centres, and to offer the opportunity to our customers to create a completely custom furniture.

Creativity, innovation, diligence and passion are always the ingredients of our work and of our success.

AUTHENTICITY CERTIFICATE

Our collections are the essence of a lifestyle, of an emotion, of a colour, of a trip, of a dream.

Challenging time and trends, they will bring to Your houses an unchangeable touch of art, originality, history and fashion.

It is an attention turned to our customer, who remains in the centre of our company philosophy.

Our products are strictly manufactured in Brianza region, the heart of Made in Italy, where the furniture culture finds its roots and is handed down from generations.

To better guarantee our customers, the griffe Caspani Tino - 100% Made in Italy is affixed on each item, thus protecting our collections from counterfeiters' imitation attempts and giving You the warranty of an authentic and original brand product.

MADE IN ITALY

To better guarantee our customers,
the griffe Caspani Tino - 100% Made in Italy
is affixed on each item, thus protecting our collections
from counterfeiters' imitation attempts
and giving You the warranty of an authentic and original brand product.

TECHNICAL DETAILS

Our company strategy has the aim to furnish the whole house, manufacturing:

Sitting Rooms
Conversations
Dining Rooms
Offices
Bedrooms
Wardrobes
Accessories

Our key feature can be found in production: we are the only one to have created different manufacturing centres, each of which specialized in a particular type of items: in classic sofas, in the style ones, in bedrooms...
This division allows us to rationalize work and therefore costs.

SITTING ROOMS

It is possible to classify our sitting rooms in two categories:

- Style sitting rooms
- Classic and new classic sitting rooms

Style sitting rooms are manufactured according to trends of baroque, English style and Louis XIV/XV style: the main feature of this kind of sofas is a rich wood structure carved by hand, then lacquered by specialized craftsman as per the original tradition in beige with antique gold leaf or following new trends.

Upholstering: seat cushions are upholstered with feather while back cushions are usually in foam. It is necessary to tidy seat cushions after seating.

Generally it is not possible to change sizes of these sofas, since it would mean to change the whole structure altering in this way the aspect of it and at the same time it would arise the final price.

On the other hand, classic sitting rooms are mostly upholstered, with few visible wooden parts carved by hand, following the design of our project managers.

Upholstering: seat and back cushions are padded with foam or with mixed foam and feather, covered by dacron and lining.

It is possible to change sizes without any problem, since the structures allow to be modified according to Your needs.

SOFAS WITH BED

Moreover, in some models it is possible to put wooden spring or electrowelded spring, making in this way a sofa-bed. The size of wooden spring and mattress changes in accordance with the sofa (from cm 82x190 to cm 160x190). Important requisite to put the spring is that there should be a fringe or a very low feet which covers the wooden spring inside the sofa.

SOFAS WITH REMOVABLE BACK STRUCTURE

Then, we have designed "removable back structure": in fact it may happen that, especially in restored houses, our big sofas do not pass through doors or windows, so we have studied a solution which lets. You assemble on place the back structure with the seat after having installed the goods in the room. This kind of mechanism should be agreed when sending the enquiry, since it is not possible to change it after production.

CORNER SOFAS

Another proposal for both classic and style sitting rooms is "Sectional and Corner Sofas". It is possible to manufacture some of our models as per following sketches:

SOLUTION A

SOLUTION B

CAPITONE'

One more feature of our production is the frequent use of real capitonné working in different sizes, as shown below:

We also summarize here-folows the materials we use in our production and we show different steps of production process:

- frame in poplar wood and carved parts in beech wood and lime wood
- strong elastic bands
- polyurethan foam padding + layer of dacron
- seat cushions in foam covered by a layer of dacron or mixed feather & dacron
- fix back structure with foam in different density + dacron
- back cushions in foam & dacron

CLASSIC SOFA - STRUCTURE OF SEAT CUSHIONS

STYLE SOFA - STRUCTURE OF SEAT CUSHIONS

All central and side tables are manufactured in beech wood with wooden or marble top.

DINING ROOMS

Our dining rooms are generally composed of the following elements:
Dining Table - Chairs and Armchairs - Sideboard - Vitrine - TV Cabinet and other items matching to above mentioned articles.

The main feature of our dining rooms is represented by tables, which can be manufactured in different shapes (square, round, oval and rectangular in standard sizes cm diam. 100 or 130, cm 160/180x100) but also on size and sectional, as per our customers' requests, for example for big dining rooms of villas or for conference rooms.

Tables' bases are manufactured in beechwood while tables' tops are in multilayer or honeycomb.
Honeycomb is made of two sheets plywood glued together on a wooden perimeter frame, in order to obtain a blank panel inside. To increase the resistance in the empty central part You add a honeycomb panel.

Since it is very light it is used for wardrobe doors which would be too heavy if made of multilayer.
In fact advantages of the honeycomb are: lightness, rigidity and strength.

Vitrines and sideboards have the doors' structure made in beech wood while top, base and structure is in honeycomb or multilayer.

Chairs and armchairs are made in beech wood.

BEDROOMS & WARDROBES

As for the sitting rooms our bedrooms too can be divided into different categories, depending on whether the headboard is all in wood, all upholstered or wooden frame and upholstery.

The shapes of our headboards vary from one model to another in order to meet all the requirements of our customers. In fact among our collections You can find headboards: baroque style, rounded or square shaped, with capitonné or without.

It is possible to manufacture all items of bedrooms on size as per customers' needs and the price can vary according to the changes we should make.

Our standard sizes are:

- for beds: wooden spring cm 195x195 or 180x200, as indicated on catalogue and price list, but for some models we can also produce single beds with standard wooden springs cm 110x195, cm 115x195 or cm 100x200
- for wardrobes we have two standard heights: cm 227 and cm 255, but we can manufacture them on size as per customer's request, both in height and length

We sum up here-folows the materials we use for our bedrooms:

- headboards in lime wood or poplar wood, then padded with foam and upholstered with fabric or leather
- side elements of the bed in multilayer + massive wood
- night tables, chest of drawers and dressing tables:
 - in beech wood (such as mod. Summertime) or
 - multilayer + side elements in honeycomb or multilayer + feet in lime wood + decorations in pressed wood
- armchairs and benches in lime wood
- wardrobes' structure in honeycomb or multilayer, base in beech wood, shelves in back elements in multilayer

Multilayer

Multilayer to lacquer with multilayer covering

CARVED WOOD

Wooden decorations are made of carved wood made of beech, mahogany or lime wood, according to the model in which it should be used.

FABRICS

It is a topic we deal with in a professional way: we use fabrics of the most important and famous Italian and European textile companies, such as Jab, Rubelli, Zimmerrohde and we have at our disposal more than 2000 fabrics' articles, a selection of which we have collected in a digital catalogue, which is sent to all our customers as a sale's tool and support.

In this catalogue all fabrics are divided per type (fabrics as photo, silk, velvet, cotton and made in different compositions) and per colour: on each fabric we have indicated code and category.
You will find categories' prices at the beginning of our price list, where we have also included an explanation of how to calculate prices of our items in a different category.
We also use customers' fabrics: that is we manufacture the sofa and then our customer sends us necessary fabric to upholster it.

TRIMMINGS & ACCESSORIES

In order to further enrich our pieces of furniture we always use precious and decorative trimmings: cords, fringes, brushes and ribbons always matching to fabrics and finishings chosen.
In this way every item is more and more personalized thus becoming unique for every customer.
Apart from trimmings, we have always been inspired from fashion trends too and we use fashion accessories adapting them to our furniture: bright strass buttons, precious handles with crystals, elegant jewels adorning our carvings, smart embroideries and romantic laces giving a touch of art to our furniture.
